undersigned with prosecution of a British patent application that corresponds to co-pending U.S. patent application serial number 10/850,595 (hereinafter the "'595 application"), which is related to the present application. This correspondence involved a search report from the U.K. Patent Office. In this search report, French reference FR 2,699,475 was cited.

The undersigned had not seen FR 2,699,475 prior to about December 26, 2005.

On or about January 23, 2006, it came to the attention of the undersigned that the present application was still pending and had not yet issued as a U.S. Letters Patent document. The undersigned immediately contacted an officer, Mr. Donald R. Potter, at the assignee JAC Products, Inc. to discuss the apparent need to cite FR 2,699,475 in the present application. On January 25, 2006, the undersigned received such authorization from Mr. Potter.

The undersigned respectfully petitions that the present application be withdrawn from issue so that the Examiner may consider the relevance of FR 2,699,475. The necessary petition fee, an Information Disclosure Statement and a Request For Continued Examination, together with the needed fee, is also being submitted concurrently herewith.

If there are any questions concerning this matter it is requested that the undersigned be contacted at the earliest convenience.

Respectfully submitted,

Dated: January 27, 2006
